CHARLES-TOWN, February 6.

A MESSAGE from the GOVERNOR to the ASSEMBLY.

Mr. Speaker, and Gentlemen,

I SEND for your Perusal and Consideration, the Copy of a Letter from the Right Hon. Sir Thomas Robinson, one of His Majesty's principal Secretaries of State.

It were Presumption in me, to recommend what comes from such Authority: The high Station of the Person who writes it, the clear and persuasive Manner in which it is written, the Importance and Interestingness of the Subject, all bespeak your serious Attention. How great an Instance of His Tenderness and Affection, hath our Royal Master and great Father of His People, here given to us, in resolving with his known courageous Constancy and Steadiness to assert our Rights! Such a Conduct in the best of Kings, must make the most deep and lasting Impressions on the grateful Hearts of dutiful Subjects, and will not suffer you to hesitate, in raising forthwith, as large a Sum as can be afforded, as your Contribution to a Common Fund, to be employed provisionally in the general Service of America.

Let us vie with the most zealous Provinces, in shewing a Regard for the general Cause of securing His Majesty's American Dominions against all Encroachments, by giving a Portion out of that Plenty which Providence hath bestowed upon us for a Series of Years.

Every one who owns a Duty, and professes Loyalty, to His Majesty, a Love to his Country, or a Regard for himself, will give cheerfully and liberally: And if any would be so mistaken, as to prefer their Riches to these Considerations, they will find it their Interest to give liberally also, as the most proper Means to secure their All. In short, Preparation for War, is the most ready and effectual Way of preserving Peace.

JAMES GLEN.

In the Council-Chamber,
the 11th Day of Jan. 1755.

(Which Act was presented to His Excellency the Governor on Saturday last, for his Assent, and by him rejected.)

In the Commons House of Assembly,
the 1st Day of February, 1755.

RESOLVED,

THAT this House (in Obedience to His Majesty's Orders, signified to the Governor by one of the principal Secretaries of State) have endeavoured, to the utmost of their Power, to raise and grant to His Majesty, an Aid toward defraying the Expence of defending His Majesty's Dominions in North-America, as considerable as the present Circumstances of the Inhabitants of this Province (who have other large Sums to provide for their own immediate Security and Defence) would admit.

RESOLVED, that by the Bill which His Excellency has been pleased to disallow, Provision was made for raising such Aid in the most expeditious Manner, and agreeably to Methods hitherto observed in this Province for raising such Supplies as have been granted to His Majesty upon the like emergent Occasions.

RESOLVED, That it is the Opinion of this

this House, that such Aid could not be raised so immediately and expeditiously as the Service must necessarily require, in any Manner whatever other than as by the Bill is pointed out and provided.

ORDERED,
THAT the Governor's Message which was brought down to this House on the 14th of last Month, with the Message in Answer thereto, and the said Bill, with the above Resolves, be printed in the Gazette.

By Order of the House,
CHILDREMAS CROFT, C.D.C.

LONDON.

His Majesty's Most Gracious SPEECH to both Houses of Parliament, on Thursday November 14th, 1754.

My Lords and Gentlemen,

IT is with great Pleasure that I meet you in Parliament, at a Time, when the late Elections have afforded My People an Opportunity of giving fresh Proofs of their Duty and Affection to My Person and Government, in the Choice of their Representatives.

The general State of Affairs in Europe has received very little Alteration since your last Meeting. But I have lately received the strongest Assurances from My good Brother the King of Spain, of His firm Resolution to cultivate Friendship and good Faith; and that He will persevere in these Sentiments. It shall be my principal View, as well to strengthen the Foundations, and secure the Duration of the General Peace, as to improve the present Advantages of it, for promoting the Trade of My good Subjects, and protecting those Possessions, which make One great Source of Our Commerce and Wealth.

Gentlemen of the House of Commons,

The Plan formed by the last Parliament for appropriating the Forfeited Estates in the Highlands to the Public Benefit, appears to be of such National Importance, that I am persuaded you will not omit any proper Opportunity of completing it. Let me also recommend it to you, to make such further Provisions, as may be expedient for perpetuating the due Execution of the Laws, and the just Authority of My Government, in that Part of the United Kingdoms.

I have ordered the Estimates for the ensuing Year to be prepared and laid before you. The Supplies which I have to ask of you, are such as shall be necessary for the ordinary Services; for the Execution of such Treaties as have been communicated to you, for consolidating and maintaining that System of Tranquility, which is My great Object; and, at the same Time, for securing Ourselves against any Encroachments.

The gradual Reduction of the National Debt, which has been so wisely and successfully begun, will, I make no Doubt, have your serious and constant Attention.

My Lords and Gentlemen,

It is unnecessary for Me to use any Arguments to press upon you Unanimity, and Dispatch in your Proceedings. I have had such ample Experience of the Fidelity, Zeal, and good Disposition of My Parliaments, during the Course of My Reign, that I trust there is a mutual Confidence established between Us; the surest Pledge of My own, and My People's Happiness.

LONDON, November 6.

It is said, that the convention between our court and that of Tunis, concerning the exemption of British vessels from paying the duties of entry in the ports of the King of Sardinia, is concluded, and will soon be made public.

WILLIAMSBURG, December 15.

WE hear by a Ship just arrived from London, that Mr. Greenville, Governor of Barbados (now in England) has purchased the Island of Tobago from the King, and that it is to be guaranteed by the Government. It is a very fine Island, and if the Lands there are granted on good Terms, will soon be settled, and be of great Use to North-America; new rich Lands afford much Meliasser, and of Course Rum.

Philadelphia, Dec. 12. Since our last Captain Miller arrived here from Leoganne, and with him came Passenger Captain Thomas Leech, late of the Schooner Jane of this Place, who on his Passage from Jamaica was taken in the Windward Passage, on the 12th of October, by a French Guard de Coast Brigantie, one Palanche Commander, and carried into Porto Prince, where he and his People were imprisoned, and his Vessel condemn'd.

Capt. Law, of New York, was taken some Time before Captain Leech, by the same Vessel, and met with the like Fate: As did likewise Captain Steel, also of New York, who was taken and carried into Cape-François.

NEW-YORK, January 6.

The Honourable ROBERT HUNTER MORRIS, Esq; Governor of Pennsylvania, in his Speech to the Assembly of the 30th of December last, after acquainting that Hon. House, that the French were fortifying themselves in their Country, says, I have lately received Intelligence, that a Body of nigh 6000 of the best Troops of France, selected, and sent over upon this particular Service, are arrived at the Lower Fort upon the Ohio, and are employed in fortifying that Country. This must convince us, that the Court of France has formed some grand Design with Regard to this Continent; and as they have made their first Attack upon this Province, without Doubt upon Account of its being the most plentiful and only defenceless Part of his Majesty's Dominions, it behoves us, in a particular Manner, to exert ourselves upon the present Occasion: I must therefore, Gentlemen, once more intreat you to lay aside every Thing that may admit of Dispute between us, 'till a more favourable Season, and enter seriously into the Consideration of the Danger to which your Country is exposed; and not only grant the Supplies recommended by the Crown, but enable me to raise a considerable Body of Men, to be employed in Conjunction with the Troops his Majesty has destined for this Service; and by establishing a regular Militia, and providing the necessary Stores of War, leave us no longer, for want of Discipline, an easy Prey to a much weaker Body of Men than are now encamped within a few Days March of this City.

Philadelphia, Jan. 7. The Assembly of this Province have resolved to give Five Thousand Pounds, for purchasing of Provisions for the King's Troops that may hereafter be in this Province, and have appointed Commissioners for laying out the said Money.

We hear from Annapolis, that the Lower House of Assembly had passed a Bill for granting Seven Thousand Pounds for the Ohio Expedition; but that it did not meet with the Concurrence of the Upper House.

CHARLES-TOWN, Febr. 6

We hear, that some Civil Commotions have lately happened in Georgia, but that they have terminated on the Expulsion of Four Members of the Assembly there.

On Friday last His Majesty's Snow Jamaica, commanded by Capt. Hood, sail'd for Georgia.

By the Master of one of our Coasters, who arrived here last Sunday from Cape-Fear, we are informed, that His Majesty's Snow Baltimore, commanded by Capt. Suckling, sail'd from thence the Day before, for Virginia.

An Ordinance was passed last Saturday, appointing Mr. Samuel Bowman, to be Controller of the County Duties for this Port, in the Room of Robert Austin, Esq; deceased. And.

We hear, that William Pinckney, Esq; will be appointed Commissary General of this Province, in the Room of John Dart, Esq; deceased.

By a Vessel from Ireland, which left it about 10 Weeks ago, we learn, that the Forces destined for Virginia were then embarking, and amounted to 3000 effective Men.

On Monday last the Rev. Mr. George Whitefield arrived in Town from the Northward; and we hear, it tends to set out this Day for Georgia.

Mr. Timothy,

AS many of the Planters of this Province, who have heretofore employed their Slaves chiefly in Rice, are now about to undertake the Culture and Manufacture of Indigo, and to that End are clearing and preparing their Lands; it will much redound to the Profit and Advantage of all such New-Beginners, to be well instructed in the planting, sleeping, beating, and curing of that Commodity.

Those, who, at a very great Expence, and by the Labour and Trial of a great many Years, have overcome every Difficulty; and, by various Experiments, have reduced the making of Indigo, to a plain, easy, and familiar Method; particularly some of those who have sent to Market the most and the best INDIGO, have associated themselves into a Company or Society: And, for the Information and Direction of all such Persons who are willing and desirous to join them, do intend a full and free Communication and Discovery, of that Knowledge and Experience which they have already acquired, or from Time to Time may acquire, in that Manufacture.

Every Member of the said Society, will be forthwith furnished with a particular Account of all Things relative to the Process of Indigo, from planting to cutting: And before the 1st of July next, will receive from the Clerk of the said Society, a compleat History of the settled and most generally approved Method of

Indigo-making, from the cutting to the barrelling.

Each new Indigo-Planter, will find it his Interest to become a Member of this Society. He will receive at once, what to others has been costly and laborious. To him, an immediate Acquaintance with some of the most minute Parts of the Indigo-Process, will be more than an Equivalent for his Admission-Money. And others, whose Views are otherwise directed, will not think a small Sum lost; as the whole Monies paid by Members at their Entrance, is to be added to a Fund already sunk for building a Free-School in George-Town, for teaching and instructing indigent Children, in the Use of Letters, and in the Principles of Religion.

Subscriptions will be received by Mr. Christopher Gadfden and Mr. Archibald Johnston.
